SURGiBIN®

Chrome wire storage products designed specifically for the medical and hospitality industries. Durable and reliable, SurgiBin® products reduce contaminants, keep sterilised stock protected, and decrease potential hazards – all while maximising the use of storage space in your hospital or medical facility.

With a wide range of protective equipment organisers, SurgiBin® chrome wire products hold an extensive range of medical supplies for organised infection control storage.

It's all about superior quality to ensure durability and longevity so that your hospital or medical facility continues to operate smoothly.

SurgiBin® uses chrome wire that doesn't trap dirt or debris like plastic storage products do, and here's how:

- The metal construction dissipates static electricity that attracts dust.
- A smooth chrome finish helps prevent dust particles from gathering on items stored in a SurgiBin®.
- Larger diameter wires and an open construction prevents the entrapment of particles commonly found in closely positioned structures.
- Horizontal wiring on the sides to give strength and support, but also for allowing smaller products to be retained safely.

Working with you to provide efficient and sterile storage solutions, SurgiBin® products offer top quality design and adaptability to suit your needs. SurgiBin® maximises the use of every storage area due to their versatility. Hook them on to louvre panels, sit them on bench tops, or place them on shelves.

SurgiBin® also provides a variety of extension products, including:

- Stacking Adaptors – for keeping SurgiBin® wire bins stacked vertically and saving on storage space.
- Dividers – to allow separate compartments or sections within a single SurgiBin®.

Hospitals and medical facilities come with specific needs, and SurgiBin® knows how important sterile and secure consumable storage is to maximise safety and increase productivity all day, every day.

EASY CHANGE OVER FROM NON STERILE PLASTIC BINS

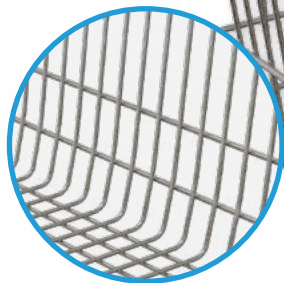

- ✓ The 5 SurgiBin® sizes closely match old plastic bin sizes.
- ✓ When you update, stock stays in the same sized bin in the same spot i.e. no search for new locations, no confusion.
- ✓ SurgiBin® stack or hang like plastic bins.
- ✓ SurgiBin® have an easy to clean silver chrome wire finish.

SURGIBIN® JUST GOT BETTER

SurgiBin® products are chrome wire storage solutions designed specifically for the medical and hospitality industries.

Durable and reliable, SurgiBin® products reduce contaminants, keep sterilised stock protected, and decrease potential hazards – all while maximising the use of storage space in your hospital or medical facility.

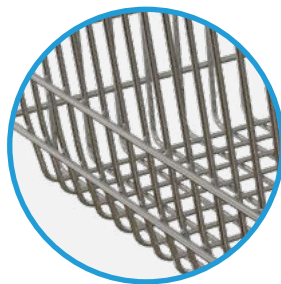

SurgiBin® is a loved and trusted design and it just got better. Check out the new design today!

INCREASED WIRE COUNT

Increased wire with a finer mesh gap (now 10mm gap, previously 15mm).

- **Stronger**
- **Mesh retains smaller items**

FULL SUPPORT WIRES

Increased wire supports surrounded all 4 sides.

- **Increased strength**
- **Retaining more items**
- **Extra Support in corners**

SAFETY WIRE COVER PLATE

Flat plate covering all wire ends ensuring no sharp edges.

- **Improved safety through wire ends being concealed**

OPTIMISED FOR DIVIDERS

Now with increased number of wires, so the bin can be divided evenly in half with a divider.

- **Easily and evenly divided**
- **More divider locations**
