STORAGE & HANDLING SOLUTIONS

**HEALTHCARE**  
2022 PRODUCT RANGE

## ABOUT KROSSTECH

An Australian owned and operated business, Krosstech has been manufacturing and providing high quality storage and material handling solutions for Australian businesses since 1968.

We offer a wide range of products and services targeted to the medical industry including medical grade wire bins, shelving, mobile storage units, trolleys, small parts storage, and ladders.

However, Krosstech is more than just the storage and materials handling supplier, we are a "solution provider". Our wide product range and in house manufacturing capabilities mean that we can design a complete storage system to suit your specific needs. You will notice in this catalogue a range of carefully sourced products used extensively within the medical industry.

At Krosstech we provide market leading storage and material handling solutions to Australian businesses with exceptional customer service.

## SURGiBIN®

### PROVIDING THE HIGHEST STANDARD FOR YOUR MEDICAL STORAGE NEEDS

SURGiBIN® products are chrome wire storage solutions designed specifically for the medical and hospitality industries.

Durable and reliable, SurgiBin® products reduce contaminants, keep sterilised stock protected, and decrease potential hazards – all while maximising the use of storage space in your hospital or medical facility.

SURGiBIN® is a loved and trusted design and it just got better. Check out the new design today!

#### CLOSE WIRE DESIGN

Increased wire with a finer mesh gap.

- Stronger
- Mesh retains smaller items

#### SAFETY WIRE COVER PLATE

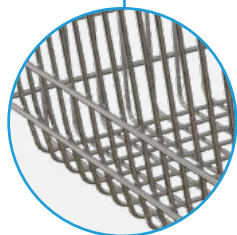

Flat plate covering all wire ends ensuring no sharp edges.

- Improved safety through wire ends being concealed

#### NEW UPDATED DESIGN

Unique & Registered

#### FULL SUPPORT WIRES

Increased wire supports surrounded all 4 sides.

- Increased strength
- Retaining more items
- Extra Support in corners

#### OPTIMISED FOR DIVIDERS

Now with increased number of wires, so the bin can be divided evenly in half with a divider.

- Easily and evenly divided
- More divider locations

## LOUVRE PANELS

### WIRE LOUVRE PANELS

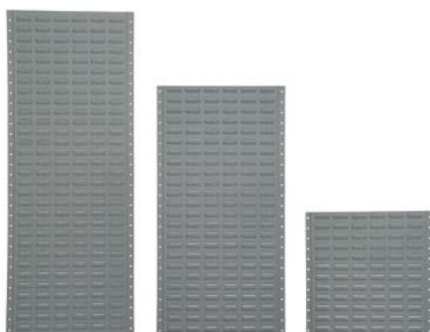

SURGIBIN® wire louvre panels are fully compatible with the SurgiBin® range of wire storage baskets designed specifically for the medical and healthcare industry.

Now with the ability to clean and dust behind the wall panel system, these wire louvre panels give full visibility to anything caught between the panel and wall.

SURGIBIN® wire baskets sit closer together when multiple panels are affixed in a row, horizontally or vertically, maximising valuable storage space.

CODE	H (MM)	W (MM)
J19519	460	460

### METAL LOUVRE PANELS

Metal louvre panels provide a versatile mounted storage solution. They allow for a maximised use of space by conveniently turning any vertical surface into a useful storage area.

The metal louvre panels are suitable for non sterile storage areas, and are specifically designed to work with our Stack 'N' Hang bins, SurgiBins® and Visipaks, creating a flexible method of bin storage.

## SINGLE BIN WALL BRACKET

#### HELPFUL TIP

Ideal for individual patient areas, beside beds and nursing stations

CODE	DESCRIPTION
J19518	Wall Bracket

SURGIBIN® brackets are designed for individual SurgiBin® wire storage baskets to be attached to the wall as suiting your application requirements.

NEW UNIQUE DESIGN ensures the wire basket is held at an even level, resulting in fewer spillages from an uneven tilt.

**SURGiBIN®****SURGiBIN® COMPLETE MODULE KITS**

SURGiBIN® complete wall modules have been carefully selected based on extensively used fitouts within the healthcare industry making it easier for you to find a specific solution that best suits your requirements.

These SURGiBIN® complete wall modules can be attached to the wall as suiting your application requirements. Side by side horizontally or vertically. ALL NEW WIRE DESIGN means less edge space so SurgiBin® wire baskets can now sit closer together when multiple panels are affixed in a row, maximising valuable storage space.

**DIDN'T FIND A SET SUITED FOR YOU?**

**OH&S COMPLIANT -  
NO TRIP HAZARDS**

Suitable for:

- Sterile storage
- Medical store rooms
- Wet stores

**SURGISPAN®****INLINE MOBILE SHELVING**

Inline SURGISPAN® is the ideal shelving solution for medical storage and is commonly installed in sterile store rooms, medical store rooms, dry stores, wet stores, commercial kitchens and warehouses. SurgiSpan® is a high quality medical grade shelving with a ventilated open metal construction that prevents the build-up of dust and allows ventilation of light and air.

SurgiSpan® is fully adjustable and is available in both static and mobile bays. Overhead rail units are designed to maximise your available storage space and allow the shelving to be added to or relocated easily.

**UNITS FROM 3 BAYS TO 9 BAYS**

HEALTHCARE BULK STORAGE RACKS

Krosstech Healthcare Bulk Storage Racks with large 25 Litre baskets are designed to store large products in a clean and sterile environment. Easy access storage racks with 20° incline giving you great visibility and efficient restocking. SurgiBin® chrome wire mesh 25 Litre baskets keeps your products clean and sterile.

Designed for storing products that have been decanted ready for use in a sterile environment, saving time for the medical staff accessing the products. Large 25 Litre baskets are ideal for storage of IV Fluid bags.

Krosstech Healthcare Bulk Storage Racks available to suit most areas and requirements –12, 16 or 20 basket configurations. Other configurations are available on request.

Each Krosstech Healthcare Bulk Storage Rack is available as a freestanding organiser on adjustable feet or as a mobile rack mounted on castor wheels for mobility.

# PLASTIC STORAGE

## STACK 'N' HANG BINS

Krosstech's range of shelf, hanging and stackable bins allows you to sort small parts in whichever way best suits your requirements. Stack n Hang Bins come in six sizes to accommodate a wide range of goods from small parts to bulky items. They come in four different colours to enable colour coding for more efficient storage. They can be stacked, hung from louvre panels or incorporated into other storage systems. These bins offer countless options to allow you to arrange your small-parts in the most efficient manner.

## TUFFTOTE®

- These Heavy Duty TUFFTOTEs® are widely used in the food industry, as well as for industrial storage and materials handling, order picking and dispatch, assembly lines, manufacturing requirements, etc
- Manufactured using a durable polypropylene material which is able to be snap frozen. Ensuring that they are also suitable for all industries including the food industry.
- Highly versatile and durable, with some models having the ability to stack when full, or nest when empty to save space.
- Skates for ease of movement are also available.
- Lids can also be used with tamper evident seal for transport security

# PROJECTS

Our experienced consulting team can help you achieve the best possible solution to your storage needs in your workspace. Since we both design and manufacture, we can take care of the whole project.

Durable and reliable, Krosstech storage solutions reduce contaminants, keep sterilised stock protected, and decrease potential hazards – all while maximising the use of storage space in your hospital or medical facility.

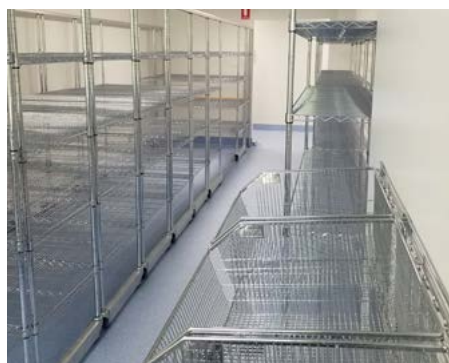

A well-organised environment improves efficiency in the workplace while improving safety and wellbeing for your patients.

**Call 1800 805 364** to discuss your project requirements with us

**SURGIBIN®** used in individual patient areas

**SURGISPAN®** chrome wire shelving fitout for bulk stores

**SURGIBIN®** fitout in ward storerooms
