About SURGISTOR®

Welcome to SURGISTOR®, the highest standard in medical and aged care storage solutions. As the umbrella brand for the renowned SURGIBIN® and SURGISPAN® product lines, SURGISTOR® incorporates the best in innovative basket and shelving solutions under one trusted name. Purpose built for the unique demands of healthcare and aged care environments, SURGISTOR® delivers storage systems that set the benchmark for safety, hygiene, and operational efficiency.

Every SURGISTOR® product line is thoughtfully designed to address the challenges faced by medical professionals and care providers, supporting optimal organisation, infection control and streamlines workflows. From robust wire baskets to versatile modular shelving, our comprehensive range is designed to adapt and grow with your facility's requirements.

By combining the strengths of SURGIBIN® advanced basket systems and SURGISPAN® flexible shelving, SURGISTOR® offers unmatched durability, adaptability, and ease of use. Trust SURGISTOR® to help you protect medical supplies, enhance efficiency, and maintain the highest standards of care in every setting.

SURGIBIN®

Wire storage products designed specifically for the medical industry. Durable and reliable, SURGIBIN® products reduce contaminants, keep sterilised stock protected, and decrease potential hazards – all while maximising the use of storage space in your hospital or medical facility.

With a wide range of protective equipment organisers, SURGIBIN® wire products hold an extensive range of medical supplies for organised infection control storage.

It's all about superior quality to ensure durability and longevity so that your hospital or medical facility continues to operate smoothly.

SURGIBIN® uses wire that doesn't trap dirt or debris like plastic storage products do, and here's how:

- The wire construction dissipates static electricity that attracts dust.
- A smooth finish helps prevent dust particles from gathering on items stored in a SURGIBIN®.
- The wire construction prevents the entrapment of particles commonly found in closely positioned structures.
- Horizontal wires on the sides to give strength and support, but also for allowing smaller products to be retained safely.
- SURGIBIN® range includes both duplex copper nickel chrome plated finish and stainless steel for enhanced corrosion resistance and smoother surface.

Working with you to provide efficient and sterile storage solutions, SURGIBIN® products offer top quality design and adaptability to suit your needs. SURGIBIN® maximises the use of every storage area due to their versatility. Hook them onto louvre panels, sit them on bench tops, or place them on shelves.

SURGIBIN® offers a diverse range of additional products such as:

- Stacking Adapters – for stacking wire bins vertically and saving on storage space.
- Dividers – Allow multiple compartments or sections within a single SURGIBIN®.
- Mounting Solutions - Both panels and wall brackets to accommodate single and multiple SURGIBIN® wire bins.
- Various Sized Bins and Baskets - Such as catheter storage and bulk storage.
- SURGIBIN® Trolleys - bringing essential supplies right on location.

EASY CHANGE OVER FROM NON STERILE PLASTIC BINS

- ✓ SURGIBIN® sizes closely match old plastic bin sizes.
- ✓ SURGIBIN® stack or hang like plastic bins.
- ✓ SURGIBIN® have an easy to clean wire finish.

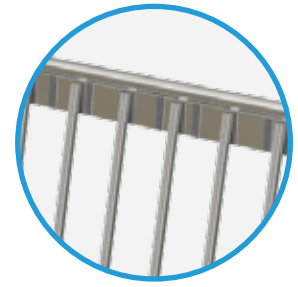

SURGIBIN® DESIGN

SURGIBIN® is a loved and trusted wire storage solution designed specifically for the medical and hospitality industries.

Durable and reliable, SURGIBIN® products reduce contaminants, keep sterilised stock protected, and decrease potential hazards - all while maximising the use of storage space in your hospital or medical facility.

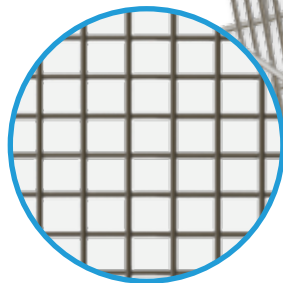

* SURGIBIN® is a certified registered design

SAFETY WIRE COVER PLATE

Flat plate covering all wire ends ensuring no sharp edges.

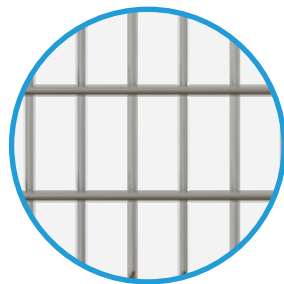

- Smooth edge reduces areas for dust particles to be trapped.
- Safety is kept through wire ends being concealed

CLOSE WIRE DESIGN

Increased wire with a fine mesh gap.

- Strong, durable, and robust
- Fine wire mesh retains smaller items

FULL SUPPORT WIRES

Wire supports surrounds all 4 sides.

- Increased strength
- Retains more items
- Extra support in corners

OPTIMISED FOR DIVIDERS

Increased number of wires, so the bin can be divided into narrower compartments.

- Multiple divider locations
- Divide your bin to best suit your needs
- Store more stock in less space.

SURGIBIN MODULES

SURGIBIN® complete wall modules have been carefully selected based on extensively used fitouts within the healthcare industry making it easier for you to find a specific solution that best suits your requirements.

These SURGIBIN® complete wall modules can be attached to the wall as suiting your application requirements. Side by side, horizontally or vertically. The wire design means less edge space so SURGIBIN® wire baskets can now sit closer together when multiple panels are affixed in a row, maximising valuable storage space.

BULK BASKET RACKS

SURGIBIN® Bulk Basket Racks with bulk baskets are designed to store large products in a clean and sterile environment. Easy access storage racks with 20° incline giving you great visibility and efficient restocking. SURGIBIN® wire baskets keep your products clean and sterile.

Designed for storing products that have been decanted ready for use in a sterile environment, saving time for the medical staff accessing the products. Ideal for storage of IV fluid bags.

SURGIBIN® Bulk Storage Racks are available to suit most areas and requirements for our basket configurations.

Every SURGIBIN® Bulk Storage Rack is available as a freestanding organiser on adjustable feet or as a mobile rack mounted on castor wheels for mobility.

Custom Bulk Storage Racks Designed for Your Space, Built for Your Needs!

SURGIBIN®

Discover the freedom of storage designed just for you. Our custom-made SURGIBIN® Bulk Storage racks are designed to solve your unique storage challenges. Whether you need lower heights to fit under benches, or specialised configurations for awkward spaces. We work with you to create a solution that maximises your space and meets your exact needs.

1800 805 364 | sales@krosstech.com.au

SURGISPAN®

Medical-grade wire storage shelving system designed specifically for the healthcare industry. Fully adjustable mobile and static bay solutions for storing and organising sterile inventory. SURGISPAN® eliminates potential trip hazards while maximising your storeroom storage capacity.

Enhance your sterile storage areas with the highest standard in medical-grade modular shelving systems. Specifically designed for sterile storerooms, medical storerooms, dry stores, wet stores, and commercial kitchens, SURGISPAN® shelving is constructed to prevent dust build-up and enable light and ventilation.

All SURGISPAN® mobile and static shelving bays are fully adjustable allowing you to create a custom shelving solution for your medical or storage space.

SURGISPAN® offers many benefits...

- Premium Wire Construction - Reduces contaminants, protects sterilised stock,

decreases potential hazards, and improves infection control.

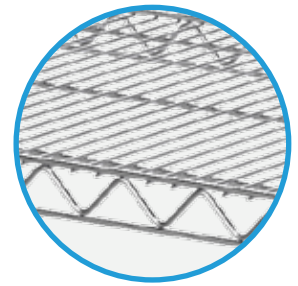

- Expandable Storage - Easily add extra shelves to your SURGISPAN® unit as required to customise your storage space.
- Adjustable Shelving Options - Shelf dividers, protective shelf ledges, and mesh sides enable you to create an organised shelving system to suit your specific needs.
- Easily Relocate Shelving Systems - The durable and lightweight design allows you to effortlessly move the shelving to suit your storage demands.

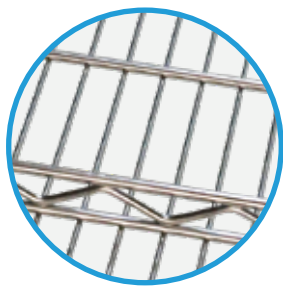

FULLY ADJUSTABLE SHELVES

Adjustable shelves offer flexible and resilient storage. Ideal for demanding medical environments.

PREMIUM WIRE CONSTRUCTION

Reduces contaminants, safeguards sterile supplies, minimises hazards, and enhances infection control.

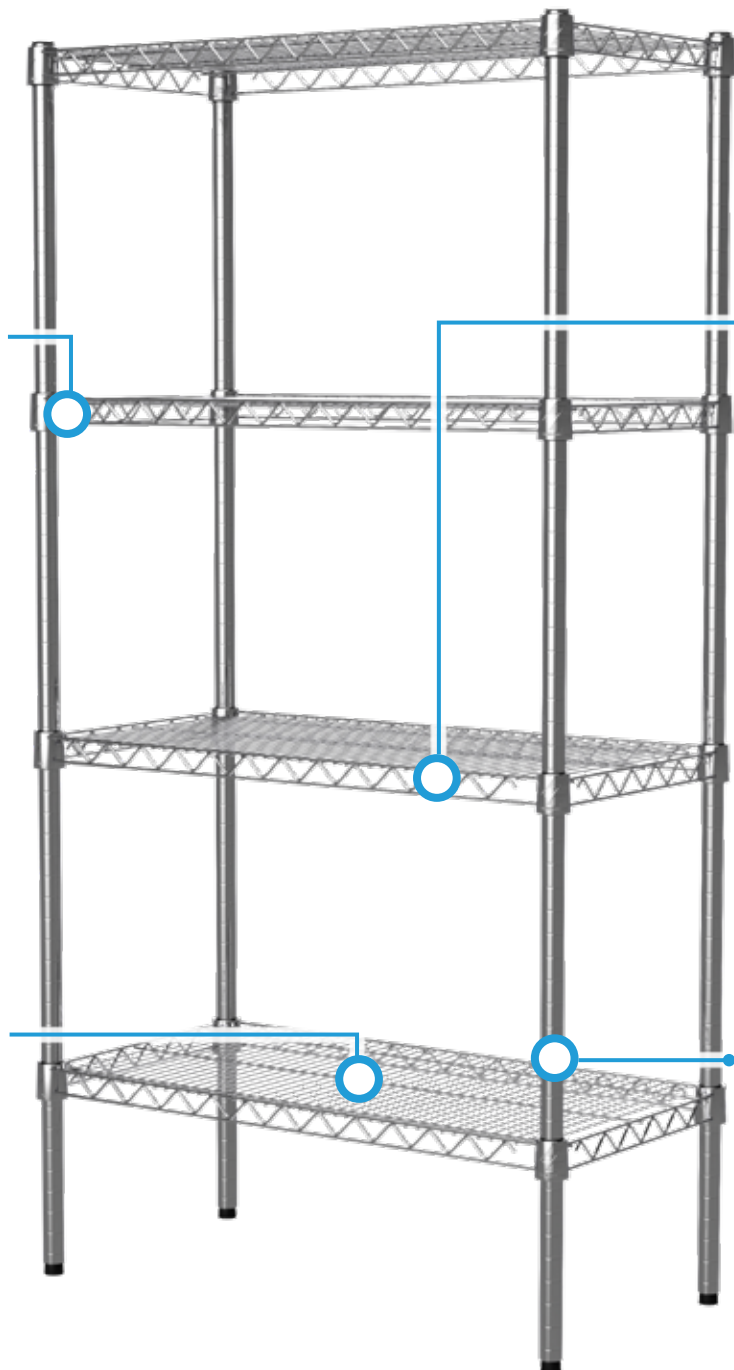

HEAVY-DUTY REINFORCED SHELVES

For maximum load capacity, each shelf is reinforced according to its size, ensuring greater strength and stability as dimensions increase.

NICKEL CHROME PLATED FINISH

The standard nickel chrome finish offers a sleek, corrosion-resistant surface suitable to sterile environments.

TROLLEY DUST COVERS

ROLL UP / FLAP BACK

The trolley dust cover's front flap rolls up and secures with hold-up straps for easy access.

FRONT STRAPS

The front straps keep the trolley dust cover taut, preventing it from flaring out and catching on equipment or other items.

BOUND SEAMS

Stitched binding on all edges and corners, reduces fraying and enhances long-term durability.

SURGIBIN®

INLINE SHELVING SYSTEM

The SURGISPAN® Inline Shelving System (compactus unit) offers a tailored premium, medical-grade storage solution designed for sterile storerooms, medical storage areas, aged care facilities, dry and wet stores, commercial kitchens, and warehouses. Overhead rail design maximises storage capacity and allows for easy relocation or expansion.

- Made from durable nickel chrome plated steel wire
- Ventilated, open wire construction
- Prevents dust build-up
- Promotes airflow and light penetration
- Large diameter castors for easier movement
- NO floor tracks to gather debris or trip hazard
- Conforms to Australian Standard
